Format

About

Format was started in 2026 by Andrew Perry to get photographers the high-end kit they need easily and in an environmentally conscious way. Edinburgh has an active creative community, and its photographers need access to the equipment that matches their ambitions. With Format, all the kit you need is just down the road, backed up by friendly, expert advice.

We have a catalogue of Profoto flash, Aputure LED and Arri HMI lighting, modifiers, light stands, boom arms and power distro available for collection or delivery across Scotland and the north-east of England.

We also stock fluid head tripods, radio mics and video lighting and source video cameras as part of your hire package. If you don't see it in the catalogue, give us a ring and we'll source it down for you.

We've built sustainability into Format from the ground up. We source as locally as possible, reducing transport miles by using manufacturers inside the EU. We use zero-emission transport for deliveries and some of our kit is second hand. Now it's cleaned up, checked over and ready for your shoot.

Good to know

To hire contact us directly on hire@format.scot with your kit list and dates. If you're not sure what you need, we're happy to advise! If you haven't hired with us before, you'll need to complete an account application and provide two trade references.

You will need an adequate insurance policy to cover the full replacement value. This must be hired-in kit insurance. We can help you to arrange this if you do not already have it.

All hires are made in accordance with our latest set of Terms and Conditions, which can be found on our website. E&OE.
